---

## Duke University

### Bachelor of Science in Computer Science

August 2020 - May 2024

- **Coursework** - Advanced Software Design/Implementation, Data Structures and Algorithms
- **Clubs** - Started and leads a Christian Fellowship at Duke.
- **Notable Achievements** - Gates Scholar, Meredith Mallory George Scholar, Youth-Foundation scholar

---

## Amazon

San Francisco, California

### Software Engineering Intern (iOS)

May 2023 - July 2023

- Created and integrated screens into the Amazon Music app for iOS
- Collaborated with senior developers to best migrate legacy asynchronous code

## Amazon

San Francisco, California

### Software Engineering Intern (Web)

May 2022 - July 2022

- Created an internal tool with ReactJS and TypeScript to allow non-technical stakeholders to interface with an Amazon Music automation system

## Sam Entertainment AG

Zurich, Switzerland (remote)

### Half-time Software Engineer

January 2023 - Present

- Lead Flutter developer for the Sam Entertainment mobile app
- Improved app startup speed by 50% and made it offline capable through caching
- Developed event itinerary feature for large Zurich company conference

## Life.Church YouVersion

Edmond, Oklahoma

### Software Engineering Intern

May 2021 - August 2021

- Created the ability to like chat messages within a livestreaming service used by thousands of churches.
- Used React, Typescript, CSS animations, and PubNub APIs to implement real time reactions.
- Gained important leadership and personal development skills through weekly development meetings.

## Widgetbook

Germany (remote)

### Winter Software Engineering Intern

January 2022 - April 2022

- Developed the “knobs” feature for the flutter web app which mirrored the knobs feature from Storybook.js.

## Virginia Consulting Company

Virginia Beach, Virginia (remote)

### Lead App Developer

June 2021 - December 2022

- Led a four person team to develop an app for a Virginia consulting company.
- Implemented client app in Flutter and used Firebase for the backend.
- Created GitHub CI/CD for automatic backend deployment as well as code quality and test validation.

---

## Bible Ram, Flutter App

<https://bibleram.app>

- Developed an opensource iOS and Android app with Flutter to help memorize the Bible in a quizlet fashion
- Managed state with the bloc library, used Isardb for serializing app data, and SQLite for storing translations

## Send, Next.js App

<https://send.petit.dev>

- Created responsive website to store and retrieve links identified by short text.
- Implemented frontend with TypeScript, Next.js, TailwindCSS, and deployed to Vercel. Used Firebase Cloud Firestore for data storage.
- Created Next.js API to allow users to easily retrieve information from the command line with cURL.

- 
- **Languages** - Dart, TypeScript, Python, Java
  - **Software** - Flutter, React, Firebase, Next.js, Tailwind CSS
